## LINARI LAW FIRM ADVISES ON FARO'S ACQUISITION OF SUNSEEKER INTERNATIONAL

We're thrilled to share Linari Law Firm's role in assisting Faro Alternative Investments, under the leadership of Giancarlo Galeone, in its recent acquisition of the iconic British yacht builder, Sunseeker International. Through Faro's "real economy" sub-fund, this acquisition sees the transfer of 100% ownership of Sunseeker.

Sunseeker, based in Poole, England, has a legacy of over 50 years of crafting luxury motor yachts and generated an impressive €370 million in sales last fiscal year, with a robust order book valued at €640 million.

This acquisition aligns well with Faro's commitment to high-growth investments in specialized sectors like luxury goods and nautical manufacturing.

Combining Faro's resources and expertise with Sunseeker's established brand, the new ownership looks forward to fostering growth and innovation, positioning Sunseeker to appeal to an expanding global market

We are proud to have played an advisory role in this important international acquisition, reinforcing our commitment to supporting clients in high-value cross-border M&A within the luxury and nautical sectors.
